

SHARPS

For the past 17 years we have been providing our services to Veterinarians in Ontario. We utilize either on site treatment by means of ion exchange technology or by off site waste transportation. You can be confident your waste will be disposed of and treated environmentally. Contact us today to discuss which option is best fits your practice. We take pride in our quick service and client satisfaction.

All waste is disposed as per M.O.E. regulations

Pre-Paid 5 Litre Container

Or

Pre-Paid 25 Litre Pail

The minimum amount of sharp containers picked up is four 5 Litre containers or one 25 litre pail. If you are using our chemical disposal program or on site treatment, the minimum will not apply at the time of the chemical pick up or service.

Save on your transport costs and have sharps and photo-chemicals picked up at the same time.

4151 Morris Drive, Unit 2
Burlington, Ontario L7L 5L5

PHOTOCHEMICAL WASTE

Greenflow will supply an approved 20 litre container which can be stored under a sink. When the container is almost full call the number on the container and a service technician will pick up the full container and leave an empty one in its place. Please allow 2-5 business days for scheduling. Below is a typical pick-up scenario:

- **1 - Closed top 20 litre labeled container**
- **1 - Replacement container at time of disposal**

A premium transportation fee may apply if outside the 100 km radius of Burlington, please inquire.

We also recycle X-Ray Film. If you are purging, please put your X-Rays aside and we will pay you \$0.15/lb. Call us for a free bin for large volumes, if required.
