

Dear Generator,

Companies who generate regulated or non-regulated hazardous waste or generate any waste subject to the Land Disposal Restriction or LDR must have an Ontario Waste Generator Number. To obtain a Generator Number your company must register with the Ministry of Environment on the Hazardous Waste Information Network (HWIN) and renew the Generator Number annually.

You will find that the HWIN website is confusing and time consuming. How can Greenflow Environmental Services, Inc help? We will act as an advisor regarding your HWIN account registration. Annual registration, new regulation updates, manifest and tonnage fees will be handled through Greenflow.

Annual HWIN Management Program fee – \$300.00 + HST (per site)

- 2011 \$50.00 Annual Registration – **included**
- 2011 Manifest and Tonnage Fees – **included**
- Land Disposal Requirements (LDR) – **included**
- Notification Forms or Part 2b – **included**
- Waste class re-classifications (LDR)– **included**

If you would like to take advantage of this program, please fill out page 2 and fax it back to (905) 333-1306.

We will need a Material Safety Data Sheet for each waste class you would like registered. Please provide on each MSDS the nature of the process each waste is used in, or how the waste is generated.

4151 Morris Drive, Unit 2, Burlington, Ontario L7L 5L5

Annual HWIN Management Program \$300.00 plus HST paid to Greenflow Environmental Services, Inc.

A designated company official is required to receive HWIN e-mail notifications, which must be forwarded to: disposal@greenflow.com

(Please print clearly) * required information

* Name _____ * E-mail _____

As the Company Official and Generator, by signing below, I have read, understand and agree with the following statements:

I understand the Hazardous Waste Information Network or HWIN is the sole responsibility of the Generator. I understand that I am the exclusive recipient of E-mail notifications from the Ministry of Environment regarding annual renewals, manifest and tonnage fees, or notifications regarding non-conforming shipments. I understand that it is my responsibility to forward all notifications to the Greenflow E-mail address: **disposal@greenflow.com**.

I understand Greenflow Environmental Services' responsibility is limited to the 2011 HWIN registration, 2011 manifest and tonnage charges, and 2011 Land Disposal Restrictions and that it remains the responsibility of the Generator to manage on site waste streams and notify Greenflow of any changes.
