# Breathe Easier.

## IAQ Reports Delivered Online and On-Demand.

Thanks to advances in modern technology from Canary Air Quality Assurance now businesses, service providers and institutions can receive quick and cost effective IAQ analysis of their indoor air quality. The Canary IAQ monitor array will record all key parameters and, on-demand, uplift the data to the Canary server for analysis and comparison to Health Canada and ASHRAE standards. The result? A quick, authoritative, comprehensive report that's available online 24/7.

The unique Canary system allows managers' and owners timely, cost effective IAQ solutions with faster, easier responses to concerns and facilitates baseline trending and year-to-year comparisons. And if desired online reports can be made available to employees, tenants or other interested parties to provide clear and pertinent solutions to IAQ concerns.

- Authoritative, Comprehensive Report following Health Canada and ASHRAE Standards
- Six Parameter IAQ Monitoring & Data Recording for Carbon Dioxide, Carbon Monoxide, Particulates, Volatile Organic Compounds (VOCs), Temperature & Humidity
- Specific Findings and Recommendations
